Stage 2 watering restrictions are in effect until further notice based on severe drought conditions in the Highlands Lakes. This requires all residential and commercial customers to adhere to a two days per week watering schedule.

Travis County WCID No. 17's Drought Contingency Plan requires the restriction of two days per week watering as a conservation device designed to ensure long-term continuity of water service to our customers. The District appreciates your making a difference and saving money as you help conserve this vital natural resource.

Your watering days are based on your address ending number:

- Monday & Thursday: 0, 1, 2, 3 (Res)
- Tuesday & Friday: 4, 5, 6 (Res)
- Tuesday & Friday: Commercial/HOAs
- Wednesday & Saturday: 7, 8, 9 (Res)
- Sunday no automated systems are allowed

All watering should occur a maximum of two days a week and only one time on your designated day. Approved hours are either between 12 a.m. – 10 a.m. OR 7 p.m. – 12 a.m. on your authorized day.

Note: *Above-ground (hose-end) sprinklers allowed once on designated day between hours of 12 a.m. - 10 a.m. OR 7 p.m. - 12 a.m.*

Hand-held *hose watering is allowed any day but NOT between 10 a.m. - 7 p.m.*

WCID No. 17 commends the community for its water conservation efforts during this time of drought. Your commitment to a water-wise lifestyle by conserving water usage will go a long way toward preserving this finite natural resource for today and tomorrow!
