Independent Auditors' Report

To the Board of Directors of
Travis County Water Control and Improvement District No. 17:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Travis County Water Control and Improvement District No. 17 (the "District"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2020, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") and the other supplemental information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Travis County Water Control and Improvement District No. 17

Management's Discussion and Analysis for the Year Ended September 30, 2020

In accordance with Governmental Accounting Standards Board Statement No. 34 ("GASB 34"), the management of Travis County Water Control and Improvement District No. 17 (the "District") offers the following narrative on the financial performance of the District for the year ended September 30, 2020. Please read it in connection with the District's financial statements that follow.

For purposes of GASB 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Total Governmental Funds" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

Overview of the Basic Financial Statements

The District's reporting is comprised of two parts:

- *Management's Discussion and Analysis* (this section)
- *Basic Financial Statements*
 - *Statement of Net Position and Governmental Funds Balance Sheet*
 - *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*
 - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
 - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Statement of Net Position and Governmental Funds Balance Sheet* includes a column (titled "Total Governmental Funds") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances* includes a column (titled "Total Governmental Funds") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District's final adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

Schedules required by the Texas Commission on Environmental Quality and other supplemental information are presented immediately following the *Notes to Basic Financial Statements*.

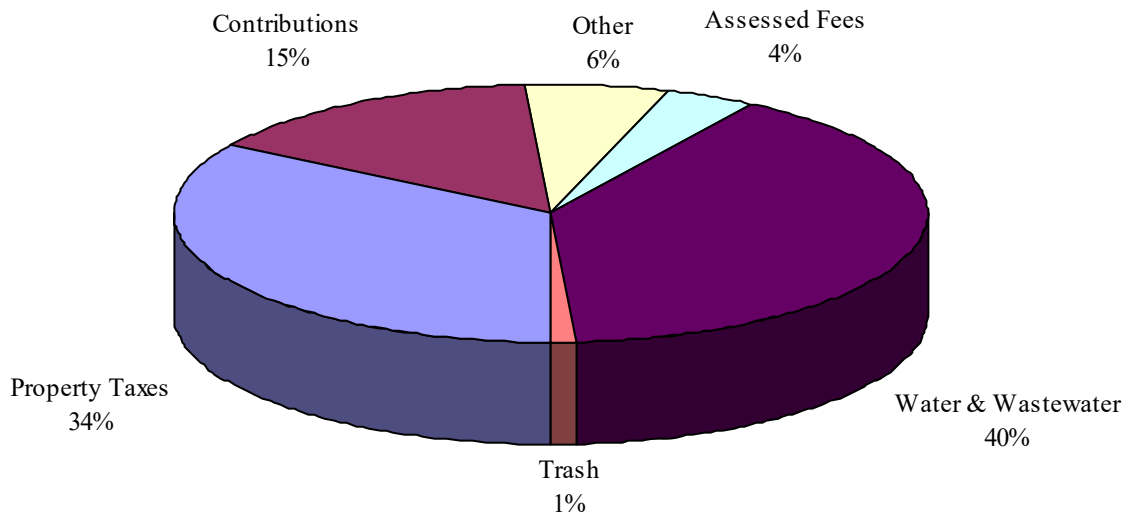

Comparative Financial Statements

Statement of Net Position

	Governmental Activities		
	2020	2019	% Change
Current and other assets	\$ 68,081,149	\$ 63,617,650	7%
Capital assets	235,908,972	231,477,597	2%
Total assets	303,990,121	295,095,247	3%
Deferred outflows of resources	1,599,134	1,536,647	4%
Current liabilities	15,203,240	15,267,614	(<1%)
Long-term liabilities	121,329,934	125,377,022	(3%)
Total liabilities	136,533,174	140,644,636	(3%)
Net investment in capital assets	112,109,003	103,143,734	9%
Restricted	5,651,516	6,796,383	(17%)

Ending net position	\$ 169,056,081	\$ 155,987,258	8%

Operating revenues increased by approximately \$5.3 million to approximately \$41.6 million for the fiscal year ended September 30, 2020. Water and wastewater provided approximately \$16.4 million, various assessed fees provided approximately \$1.8 million, and property taxes generated approximately \$14.1 million in revenues. Total expenses decreased approximately \$284,000 to approximately \$28.6 million for the fiscal year ended September 30, 2020. Net position increased approximately \$13.1 million and \$7.5 million for the fiscal years ended September 30, 2020 and 2019, respectively.

Analysis of Governmental Funds

Government Funds by Year

	2020	2019
Cash and cash equivalents	\$ 13,503,303	\$ 15,078,800
Temporary investments	51,773,917	45,248,772
Accounts receivable	2,431,587	2,828,054
Inventory	5,000	5,000
Prepaid and other assets	41,193	36,277
Due from other funds	8,143,482	8,624,390
Total assets	<u>\$ 75,898,482</u>	<u>\$ 71,821,293</u>
Accounts payable	\$ 3,461,347	\$ 3,437,576
Accrued liabilities	138,631	189,538
Customer deposits	1,091,619	877,705
Unearned revenue	71,419	74,656
Due to other funds	8,143,482	8,624,390
Total liabilities	<u>12,906,498</u>	<u>13,203,865</u>
Deferred inflows of resources	<u>149,186</u>	<u>143,486</u>
Nonspendable	46,193	41,277
Restricted for debt service	7,041,268	8,292,278
Restricted for capital projects	11,550,263	9,875,854
Committed	636,460	2,652,486
Unassigned	43,568,614	37,612,047
Total fund balances	<u>62,842,798</u>	<u>58,473,942</u>
Total liabilities, deferred inflows of resources, and fund balances	<u>\$ 75,898,482</u>	<u>\$ 71,821,293</u>

The *General Fund* pays for daily operating expenditures. When comparing actual to budget, actual revenues were more than budgeted revenues primarily due to the District receiving more connection and other fees than budgeted. Expenditures were less than budgeted primarily due to fewer capital outlay expenditures. More detailed information about the District's budgetary comparison is presented in the *Basic Financial Statements*.

The *Debt Service Fund* remitted bond principal of approximately \$9.2 million and interest of approximately \$4.0 million during the year ended September 30, 2020. More detailed information about the District's debt is presented in the *Notes to Basic Financial Statements*.

The *Capital Projects Fund* primarily purchases the District's infrastructure. Capital outlay expenditures were approximately \$5.8 million for the year ended September 30, 2020.

During the year ended September 30, 2020, the District issued \$19,025,000 in Unlimited Tax Refunding Bonds in the Steiner Ranch Defined Area and \$4,500,000 in Unlimited Tax Bonds in the Serene Hills Defined Area. More detailed information about these bond issuances are presented in the *Notes to Basic Financial Statements*.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. While the disruption is expected to be temporary, there is uncertainty around the duration. Due to the nature of the District's services, the pandemic may negatively impact the District's business, results of operations, and financial position; however, the related financial impact cannot be reasonably estimated at this time.

Capital Assets and Long-Term Debt Activity

Capital Assets

	<u>2020</u>	<u>2019</u>
Land and easements	\$ 2,676,443	\$ 2,676,443
Construction in progress	1,143,335	12,707,735
Infrastructure	323,295,868	299,212,566
Buildings	1,666,389	1,666,389
Furniture, fixtures & equipment	5,294,518	5,210,850
Subtotal	334,076,553	321,473,983
Accumulated depreciation	(98,167,581)	(89,996,386)
Total	<u>\$ 235,908,972</u>	<u>\$ 231,477,597</u>

More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

Long-Term Debt Activity

	<u>2020</u>	<u>2019</u>
Current portion	\$ 8,985,000	\$ 9,125,000
Long term portion	114,714,998	125,377,022
Total	<u>\$ 123,699,998</u>	<u>\$ 134,502,022</u>

During the year, the District issued \$19,025,000 in refunding bonds to refund then outstanding principal of \$19,650,000 and issued \$4,500,000 in unlimited tax bonds. More detailed information about the District's long-term debt is presented in the *Notes to Basic Financial Statements*.

Currently Known Facts, Decisions, or Conditions

The adopted budget for 2021 projected an increase in revenue of approximately \$630,000 compared to the 2020 final operating budget and a decrease in expenditures of approximately \$1.1 million from the 2020 final operating budget. The tax rate has been set at \$0.0599 and \$0.0750 per \$100 of assessed value for the District wide area and the Serene Hills Defined Area, respectively, for operations and maintenance funds, and \$0.2889, \$0.3422, and \$0.5500 per \$100 assessed value for the Steiner Ranch Defined Area, Flintrock Ranch Estates Defined Area, and Serene Hills Defined Area, respectively, which is for debt service funds.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District at 3812 Eck Lane, Austin, Texas 78734. For an updated description of the areas served by the District and the facilities operated by the District, please refer to the District's website at www.wcid17.org.

Travis County Water Control and Improvement District No. 17

Notes to Basic Financial Statements Year Ended September 30, 2020

1. Summary of Significant Accounting Policies

Travis County Water Control and Improvement District No. 17 (the “District”), was created by an order of the Commissioners’ Court of Travis County, Texas on December 8, 1958, and confirmed by the electorate of the District at a confirmation election held on February 28, 1959. The Board of Directors (the “Board”) held its first meeting in December 1958, and the first bonds were sold on November 15, 1959. The District operates and maintains a water treatment and distribution system in Travis County, Texas under Chapter 51 of the Texas Water Code. The District is a political subdivision of the State of Texas and operates under an elected Board of Directors. Additional information related to the District, including information on the utility service territory and water and wastewater facilities operated by the District, is available on the District’s website at www.wcid17.org.

The reporting entity of the District encompasses those activities and functions over which the District’s elected officials exercise significant oversight or control. The District is governed by a five-member Board which has been elected by District residents or appointed by the Board. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”) since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters. In addition, there are no component units which are included in the District’s reporting entity.

Government-Wide and Fund Financial Statements

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “Total Governmental Funds” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The government-wide financial statements report information on all of the activities of the District. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due.

The Capital Projects Fund is used to account for financial resources restricted for or committed to authorized construction and other capital asset acquisitions.

Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device for the General Fund. Formal budgetary integration is not employed for the Debt Service Fund and the Capital Projects Fund. The budget is proposed by the District General Manager for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Cash and Cash Equivalents - Includes cash on deposit as well as investments with maturities of three months or less. The investments, consisting of money market funds, are recorded at cost, which approximates fair value.

Investments - Temporary investments throughout the year consisted of investments in an external local government investment pool, certificates of deposit, and money market mutual funds. The external local government investment pool is recognized at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policy. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments. Restricted investments consist of escrowed bond proceeds.

Accounts Receivable - The District provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management's evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. As of September 30, 2020, there was no allowance for uncollectible accounts.

Prepaid Items - Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

Capital Assets - Capital assets, which include land and easements, construction in progress, infrastructure (water, wastewater, drainage and distribution systems, and water tanks purchased, constructed or donated), buildings, and furniture, fixtures and equipment, are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets (other than land and easements and construction in progress) are depreciated using the straight line method over the following estimated useful lives: infrastructure - twenty to fifty years, buildings - thirty years, furniture, fixtures and equipment - five to ten years.

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, including bond insurance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond insurance costs are reported as assets and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, including bond insurance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Ad Valorem Property Taxes - Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Deferred Outflows and Deferred Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. See Note 6 for additional information on deferred outflows of resources.

Fund Equity - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 9 for additional information on those fund balance classifications.

Included in restricted fund balance in the Debt Service Fund are funds collected from customers of the Apache Shores water system for the payment of annual debt service requirements. These fees, which are assessed through debt service fees and capacity buy-in fees on the customer's monthly water bill, cannot be used in the daily operation of the system or combined with the District's debt service collections or operating needs.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after June 15, 2021. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2022.

In June 2018, the GASB issued GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective for fiscal years beginning after December 15, 2020. The objective of GASB Statement No. 89 is to enhance the relevance and comparability of information about capital assets and to simplify accounting for interest costs incurred before the end of a construction period. Under GASB Statement No. 89, interest costs will no longer be capitalized as part of the asset but will be shown as an expenditure in the fund financial statements and as an expense in the government-wide financial statements. Management is evaluating the effects that the full implementation of GASB Statement No. 89 will have on its financial statements for the year ended September 30, 2022.

2. Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds total fund balance	\$ 62,842,798
Prepaid bond insurance costs are recorded as expenditures in the funds, but are amortized over the life of the related bonds in the statement of net position.	326,149
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	235,908,972
Deferred tax revenue is not available to pay for current period expenditures and, therefore, is deferred in the funds.	149,186
The following liabilities are not due and payable in the current period and, therefore, are not reported in the funds:	
Bonds payable, including premiums and discounts	(129,368,550)
Less: Deferred charges on bond refundings	1,599,134
Accretion payable	(946,384)
Bond interest payable	<u>(1,455,224)</u>
Total net position	<u>\$ 169,056,081</u>

Amounts reported for governmental activities in the statement of activities are different because:

Change in fund balances	\$ 4,368,856
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense:	
Capital outlay	6,587,359
Depreciation expense	(8,210,596)
Contributed capital assets	6,054,612
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Change in deferred tax revenue	5,700
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Repayment of bond principal	9,225,000
Bond proceeds, including premium and discount	(25,194,989)
Payment to refunded bond escrow agent	19,973,409
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	
Change in bond interest payable	107,915
Change in accretion payable	(21,384)
Amortization of deferred charges on bond refunding	(260,922)
Amortization of bond premium	648,517
Amortization of original issue discount	(120,056)
Bond insurance premium	84,078
Amortization of bond insurance costs	<u>(178,676)</u>
Change in net position	<u>\$ 13,068,823</u>

3. Cash, Cash Equivalents, and Temporary Investments

The District's deposits are required to be secured in the manner provided by law for the security of the funds. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of September 30, 2020, the District's bank deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are safety, liquidity, and yield.

The District is entitled to invest in obligations of the United States, the State of Texas and their agencies or any state, county, city and any other political subdivisions of any state rated by a nationally recognized investment rating firm with a rating not less than A or its equivalent, certificates of deposit of state or national banks or savings and loan associations within the State, prime domestic bankers' acceptances, commercial paper with a stated maturity of 270 days or less from the date of its issuance, fully collateralized repurchase agreements, no-load money market mutual funds regulated by the United States Securities and Exchange Commission, and eligible public funds investment pools.

Investments held at September 30, 2020 consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
Local Governmental Investment Pool- TexStar	\$ 34,952,690	1	AAAm
Certificates of Deposit	16,205,003	345	N/A
Money Market Mutual Funds	616,224	1	AAAm
Total	<u>\$ 51,773,917</u>		

The District had investments in an external local government investment pool, Texas Short-Term Asset Reserve ("TexStar"). Although TexStar is not registered with the SEC as an investment company, it operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. This investment is stated at amortized cost, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

TexStar is administered by First Southwest Company and JPMorgan Chase. TexStar is overseen by a five-member governing board made up of three participants and one of each of the program's professional administrators. The responsibility of the board includes the ability to influence operations, designation of management and accountability for fiscal matters. In addition, TexStar has a Participant Advisory Board which provides input and feedback on the operations and direction of the program, and Standard and Poor's reviews the pool on a weekly basis to ensure the pool's compliance with its rating requirements. TexStar's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

The District also invests in money market mutual funds. Money market mutual funds are valued using Level 1 inputs that are based on market data obtained from independent sources. The investments are reported by the District at fair value in accordance with GASB Statement No. 72.

The restricted investments (money market mutual funds) in the Capital Projects Fund consist of the remaining proceeds of the Series 2006 Unlimited Tax Bonds, Series 2009A Unlimited Tax Bonds, and Series 2010 Unlimited Tax Bonds. These funds can only be released from escrow upon written authorization from the Texas Water Development Board.

Credit Risk - At September 30, 2020, investments were comprised of an external local governmental investment pool, certificates of deposit, and money market mutual funds with ratings from Standard & Poor’s in compliance with the District’s investment policy. At September 30, 2020, all certificates of deposits were collateralized in compliance with the District’s investment policy.

Interest Rate Risk - The District considers the holdings in the external local governmental investment pool and money market mutual funds to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At September 30, 2020, the District’s holdings in certificates of deposit had a weighted average maturity of 345 days.

4. Interfund Receivables, Payables, and Transfers

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds.” The composition of interfund balances as of September 30, 2020, was as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Debt Service	\$ 4,072,280
Capital Projects	General Fund	3,534,622
Capital Projects	Debt Service	536,580
Total		<u>\$ 8,143,482</u>

During the year, the Capital Projects Fund transferred \$2,243,541 to the Debt Service Fund for repayment of bonds with water impact fees collected by the Capital Projects Fund. The General Fund transferred \$2,308,188 to the Capital Projects Fund for capital outlay expenditures. The Debt Service Fund transferred \$16,214 to the General Fund for property taxes collected by the Debt Service Fund.

5. Capital Assets

Capital assets activity for the year ended September 30, 2020, was as follows:

	Balance 9/30/2019	Additions	Retirements and Transfers	Balance 9/30/2020
Capital assets not being depreciated:				
Land and easements	\$ 2,676,443	-	-	2,676,443
Construction in progress	12,707,735	2,081,287	(13,645,687)	1,143,335

\$19,685,000, Series 2019, Travis County Water Control and Improvement District No. 17 Water and Sewer System Revenue Refunding Bonds, maturing annually on November 1 through 2037. Interest varies from 3.00% to 4.00% and is payable on May 1 and November 1 each year. Bonds are callable on November 1, 2029.	19,570,000	765,000

\$4,500,000, Series 2019, Travis County Water Control and Improvement District No. 17 Serene Hills Defined Area Unlimited Tax Bonds, maturing annually on November 1 through 2044. Interest varies from 2.00% to 4.00% and is payable on May 1 and November 1 each year. Bonds are callable on November 1, 2025.	4,500,000	-
\$19,025,000 Series 2020, Travis County Water Control and Improvement District No. 17 Steiner Ranch Defined Area Unlimited Tax Refunding Bonds, maturing annually on May 1 through 2032. Interest varies from 2.00% to 4.00% and is payable on May 1 and November 1 each year. Bonds are callable on May 1, 2030.	<u>19,025,000</u>	<u>200,000</u>
Total long-term debt	<u>\$ 123,699,998</u>	<u>8,985,000</u>

No accretion payable is due in one year at September 30, 2020.

On November 26, 2019, the District issued \$4,500,000 Serene Hills Defined Area Unlimited Tax Bonds, Series 2019, to reimburse the District's developer for construction and engineering, pay interest on funds advanced by the developer on behalf of the District, and pay certain other costs related to the issuance of bonds. The net proceeds of \$4,256,956 (after payment of \$276,663 in underwriter fees, insurance, and other bond related costs) was deposited in the Capital Projects Fund to provide payments for developer reimbursements and to reimburse for bond issue costs.

On September 22, 2020, the District issued \$19,025,000 in Steiner Ranch Defined Area Unlimited Tax Refunding Bonds, Series 2020, to advance refund \$1,685,000 of its previously issued Series 2011 bonds, advance refund \$6,545,000 of its previously issued Series 2012 bonds and advance refund \$11,420,000 of its previously issued Series 2013 bonds in order to lower its overall debt service requirements. The net proceeds of \$19,978,896 (after payment of \$687,859 in underwriting fees, insurance, and other issuance costs) were used for the following: 1) \$19,973,409 was deposited with an escrow agent to provide the debt service payment on the portion of bonds advance refunded; and 2) \$5,487 was deposited in the District's Debt Service Fund for future principal and interest payments. As a result, \$19,650,000 of bond principal is considered defeased, and the liability of these bonds was removed from the basic financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$323,409. This amount is recorded as a deferred outflow of resources and amortized over the remaining life of the refunded debt which was equal to the life of the new debt issued. The advance refunding reduced debt service payments by \$1,257,035 and resulted in an economic gain of \$1,293,708.

The bond resolutions require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and cover the cost of assessing and collecting taxes. These provisions have been met, and the cash allocated for these purposes is sufficient to meet debt service requirements through the fiscal year ended September 30, 2020.

The Series 1997 Bond Resolution requires the District to use fees collected from users in the Apache Shores water system for payment of the interest and principal on bonds when due.

As of September 30, 2020, the debt service requirements to maturity on the long-term debt outstanding is as follows:

Fiscal Year	Principal	Interest	Total Requirement
2021	\$ 8,985,000	3,693,858	12,678,858
2022	7,379,998	4,685,092	12,065,090
2023	7,930,000	3,469,925	11,399,925
2024	8,190,000	3,222,267	11,412,267
2025	7,825,000	2,969,307	10,794,307
2026-2030	41,545,000	10,691,531	52,236,531
2031-2035	23,800,000	4,786,328	28,586,328
2036-2040	12,805,000	1,821,825	14,626,825
2041-2045	5,240,000	363,329	5,603,329
Total	\$ 123,699,998	35,703,462	159,403,460

The outstanding Steiner Ranch Defined Area Unlimited Tax Refunding Bonds, Series 2016, include both current interest bonds and capital appreciation bonds. The interest shown above, with respect to the capital appreciation bonds, includes the interest to be paid on the bonds maturing in the respective years and does not include accrued interest on bonds not maturing in those years.

In the current year, the District defeased certain outstanding general obligation bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the District’s financial statements. At September 30, 2020, outstanding bonds of \$19,650,000 are considered defeased.

At September 30, 2020, unlimited tax bonds of approximately \$34,155,000 were authorized by the District, but unissued. Of this amount, \$29,925,000 represents unissued Serene Hills Defined Area Bond authority, and \$4,230,000 represents Flintrock Ranch Estates Defined Area Bond authority.

8. Property Taxes

The Texas Water Code authorizes the District to levy a tax each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located within its boundaries. Assessed values are established annually by the Travis Central Appraisal District. District property tax revenues are recognized when levied to the extent that they are collected in the current year. The uncollected balance is reported as deferred revenue. Taxes receivable are due January 1 and are delinquent if received after January 31 and are subject to penalty and interest charges.

The combined tax rate was \$0.0599 per \$100 assessed valuation District-wide, except for the Steiner Ranch Defined Area, Flintrock Ranch Estates Defined Area, and the Serene Hills Defined Area. The Steiner Ranch Defined Area, Flintrock Ranch Estates Defined Area, and Serene Hills Defined Area had additional tax rates of \$0.2899, \$0.3422, and \$0.6250 per \$100 assessed valuation, respectively. The total 2019 tax levy was \$14,109,298 based on a taxable valuation of \$10,080,567,150.

9. Fund Balances

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances is included in the Governmental Funds Balance Sheet on page 10.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has delegated the authority to assign fund balance for a specific purpose to the General Manager of the District.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

10. Impact Fees

In July 1984, the District's Board voted for an amendment to the District's Rules and Policies which provides for the assessing of certain fees from developers in the area serviced by the District. These fees are kept separate from other revenue of the District and are used for the purpose of constructing improvements to the District's water treatment, storage, pumping and transmission facilities.

In December 1987, the District and Steiner Ranch Development Corporation (the “Developer”) entered into an annexation agreement. In May 1988, the voters of the District approved the issuance of Defined Area Bonds for the annexed land. The issuance of the Defined Area Bonds is for payment and reimbursement to the Developer for a portion of all costs to provide water, sewer and drainage facilities for the annexed land. The District cannot issue new Steiner Ranch Defined Area debt if the tax rate for payment of debt service on the Defined Area Bonds is greater than \$0.89 minus the District-wide tax rate per \$100 assessed valuation.

The District’s Board has regularly reviewed and approved Land Use Assumptions and Capital Improvements Plans for Water and Wastewater for all regions of the District. By doing so they have approved Water and Wastewater Impact Fees. These fees are kept separate from other revenue of the District and are used for the purpose of constructing improvements to the District’s Water and Wastewater treatment, storage, pumping and transmission facilities. At September 30, 2020, the District had committed fund balance related to these impact fees of \$636,460.

11. Deferred Compensation Plans

The District offers its employees a deferred compensation plan established in accordance with Internal Revenue Code 457 and a deferred compensation plan established in accordance with Internal Revenue Code 401(a). Assets and income of the District’s plans are held in custodial accounts with a bank for the exclusive benefit of participants and their beneficiaries. Accordingly, the plans’ assets and liabilities are not recorded in the District’s basic financial statements.

12. Risk Management

The District’s risk management program includes coverage through third party insurance providers for automobile liability, director and officer liability, public official position liability, and general liability. Losses in excess of the various deductible levels are covered through traditional indemnity coverage. Settled claims have not exceeded insurance limits for the past three years.

13. Commitments and Contingencies

The District has entered into construction contracts for the following projects as of September 30, 2020:

Project Name	Remaining Commitments
Eck Ln & Mansfield WTP Improvements	\$ 1,143,800
Lohmans Pump Station Improvements	1,504,680
Total remaining commitments	<u>\$ 2,648,480</u>

The District has entered into several cost share agreements between the District and the developers for the sharing of construction and engineering expenses related to various projects. The Cost Share Agreements represent the respective pro-rata share of capacity each party shall have in the projects.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. While the disruption is expected to be temporary, there is uncertainty around the duration. Due to the nature of the District's services, the pandemic may negatively impact the District's business, results of operations, and financial position; however, the related financial impact cannot be reasonably estimated at this time.

14. Water and Wastewater Contracts

Contract 59757

On May 23, 2001, the District entered into a contract with the Lower Colorado River Authority (the "LCRA") for the right to divert up to 8,800 acre-feet (2,867,920,000 gallons) of raw water per annum from Lake Travis in Travis County, Texas. This contract was amended on April 7, 2011. Water supplied under this contract will be utilized for municipal uses only. The term of the contract is 50 years, ending on May 23, 2051.

On a monthly basis, the District agrees to pay an amount equal to the water rate determined by the Board of Directors of the LCRA to then be in effect for all sales of water for municipal purposes times the amount of water diverted during the previous month. On a calendar year basis, the District agrees to pay an amount equal to the rate determined by the Board of Directors of the LCRA, to then be in effect for diversion of water in amounts in excess of the maximum annual quantity (the "Inverted Block Rate"). As of September 30, 2020, the raw water rate was \$145/acre-feet of water and the Inverted Block Rate was \$290/acre-feet of water. During the current fiscal year, the District incurred costs of \$1,148,757 in relation to Contract 59757 with the LCRA.

Contract 8000287348

On August 16, 2013, the District entered into a contract with the LCRA for the right to divert up to 494 acre-feet of raw water per annum from Lake Travis in Travis County, Texas. Water supplied under this contract will be utilized for recreational uses only. The term of the contract is 10 years.

On a monthly basis, the District agrees to pay an amount equal to the water rate determined by the Board of Directors of the LCRA to then be in effect for all sales of water for recreational purposes times the amount of water diverted during the previous month. On a calendar year basis, the District agrees to pay an amount equal to the water rate times 50% of the "reserved water", which is the difference between the maximum annual quantity and the amount of water actually diverted. In addition, the District agrees to pay an amount equal to the rate determined by the Board of Directors of the LCRA, to then be in effect for diversion of water in amounts in excess of the maximum annual quantity (the "Inverted Block Rate"). As of September 30, 2020, the raw water rate was \$145/acre-feet of water, the reserved water rate was \$72.50/acre-feet of water and the Inverted Block Rate was \$217.50/acre-feet of water. During the current fiscal year, the District incurred costs of \$36,364 in relation to this contract with the LCRA.

West Travis County Public Utility Agency

On May 10, 2007, the District entered into a Wholesale Wastewater Service Agreement with the LCRA. The First Amendment to the agreement was approved on January 6, 2009. In addition, on February 16, 2012, the District consented to the assignment of this agreement from the LCRA to the West Travis County Public Utility Agency (the “PUA”). In accordance with the agreement, the PUA agrees to collect, treat and dispose of wastewater originating from the Falconhead West development. The PUA will provide up to a maximum monthly flow rate of 100 gallons per minute and a peak flow rate of 400 gallons per minute. The District has installed flow meters to accurately account for the flow of wastewater to the PUA. The PUA will establish rates, charges and fees for the service provided under the agreement. As of September 30, 2020, the minimum monthly fee being charged to the District was \$17,936. The District is also charged \$5.10 per 1,000 gallons of actual flow through the meters. During the current fiscal year, the District incurred \$383,066 in charges related to this agreement for wastewater delivered to the PUA.

Lakeway Municipal Utility District

On December 23, 2005, the District entered into an Agreement for Wholesale Wastewater Service with Lakeway Municipal Utility District (“Lakeway”). The First Amendment to the agreement was approved on December 17, 2009. In accordance with the agreement, Lakeway commits and agrees to accept and treat up to 600 living unit equivalents (LUEs), as defined in the agreement, of wastewater from development within the District. The purchase price to be paid by the District for each LUE is \$7,300. As of September 30, 2020, the District had purchased 305 LUEs from Lakeway. Lakeway charges a monthly volume charge for wastewater that flows through the meter. As of September 30, 2020, the current volume charge is \$5.79 per 1,000 gallons of flow. During the current fiscal year, the District paid Lakeway \$123,315 for volume charges in relation to actual wastewater flows.
