

Recycling Guidelines

Schedule

- Recycling is collected on the same day as your trash. Place your recycling cart at the curb by 7:00 a.m. A separate truck from the trash truck collects recycling.
- Curbside recycling collection once a week.
- One (1) 65-gallon recycling cart provided by the service vendor.
- Rinse food waste from all recyclables.
- Place all recyclables in the same cart. No sorting is needed, but keep newspapers dry.
- Place your recycling cart three (3) feet away from your trash cart so the automated arm can pick it up.
- Additional carts are available for an additional charge.

What Can Be Recycled

Paper: Magazines, junk mail, box board, holiday and greeting cards, phone books, home office paper, paper bags, catalogs, and newspapers. You don't need to remove inserts.

Corrugated cardboard: Flatten or cut cardboard down to 2 feet by 2 feet. Place it in your recycling cart, or set it next to the recycling cart if it doesn't fit. Corrugated cardboard is thick and has a wavy middle layer. Moving and shipping boxes are usually made of it.

What Cannot Be Recycled

- Pizza boxes or any paper or cardboard with food residue.
- Disposable paper plates and cups.
- Paper towels, tissues, and toilet paper.
- Wrapping paper and gift bags.
- Milk and juice cartons.

Please note: Cardboard left next to the trash cart, or cardboard that isn't flattened or cut down, will be collected as trash.

Before you publish, confirm two things with Waste Connections: whether cardboard set beside the cart needs to be tied with twine, and whether milk and juice cartons are excluded. Also add the plastics, cans, and glass sections once you have their accepted list, and change the household page to three feet so the two pages match.
